## Sheep Sale 26/06/2015

### Breeding Sheep

It was not known what to expect at the first breeding ewe sale of the year what with the lamb trade not being the best and the cull ewe trade taking a slight drop recently. So with an entry just short of a thousand yearlings to move there seemed to be quite a bit of concern about what kind of trade there would be. However it was not all doom and gloom. Though not quite the prices of last year the trade was good enough to see everything sold with an average of £118 and highs of £141 for Texel X yearlings and the best Suffolk yearlings selling to £130. Top price ram was Charolais x Texel from Monahan, South Headborough that sold for 300gns and some late ewe and lamb couples sold to £136.

### Leading Prices
