**WHITLAND DAIRY
HERD DISPERSAL
Friday, 15th June 2018 • Sale starts at 11.00am**

**Llannewydd Herd
200 head**

From Brian & Sian Phillips, Blaencwm, Trawsmawr, Carmarthen

This productive herd of sound milkers developed by the vendors through the use of top class sires with emphasis on type coupled to the ability to perform economically on a grass diet being grazed day and night for as many months as possible. A feature of the sale are the superb milking vessels exhibiting wearability and the ability to produce high yields of milk, fat and protein with low cell counts. This is confirmed by the classification results with several Excellent and Very Good cows produced over the years from good consistent families.

Calving all year a good number will be forward in full milk with a group of fresh heifers being a feature whilst several dry and stale milkers alongside a promising group of heifers that will calve in late summer/early autumn providing something for every dairy farmer seeking top class animals that will perform well within any system.

Auctioneers Note - this will be one of the best herds to come on the market in South Wales this year being strong cattle with sound bodies, exceptional udder and teat conformation whilst having natural milking ability within a commercially based grass system-a sale not to be missed to anyone seeking sound replacements.
